# D-TECT Laser

The D-TECT Laser is a laser based security device designed to create virtual curtains and surveillance security zones. The D-TECT Laser is programmable to within 10cm and operates with the highest levels of precision for accurate and reliable intrusion detection.

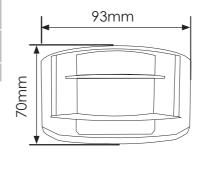

#### **APPLICATIONS**

- Monitoring pedestrian and vehicle access points
- Perimeter protection and intrusion detection
- Safeguarding works of art and masterpieces
- Protection against theft and vandalism
- Securing open sites

#### **EASE OF INSTALLATION**

- 3 visible red LASER beams can be activated to align the detection surface and adjust the tilt and rotation angles
- Teach-in function: self-learning of both environment and background through an automatic adjustment of the detection planes
- Remote control to easily set the adjustable parameters
